Scholarship Application

How to Apply

To complete this application, you must:

- 1. Complete all the information required on pages 1 & 2.
- 2. Read pages 3 & 4 of the packet and answer the quiz on page 5.
- 3. Return completed packet to Choptank Electric Cooperative one of the following ways:
- Option 1: Email completed application to lotd@ choptankelectric.coop by Thursday, April 20, 2023 at 4:30 p.m.
- Option 2: Drop off at walk-in offices in Denton or Salisbury by Thursday, April 20, 2023 by 4:30 p.m.
 DENTON 10384 River Road Denton, MD 21629

SALISBURY 6520 Walston S

6520 Walston Switch Road Salisbury, Maryland 21804

WE WILL NOT BE
ACCEPTING
APPLICATIONS AT THE
ANNUAL MEETING.
APPLICANTS MUST BE IN
ATTENDANCE TO WIN.

I hereby confirm that I will be attending a post-secondary institution during the 2023 fall semester.

If my name is selected for a scholarship, I hereby agree to allow my name and photograph to be publicized in conjunction with the Choptank Electric Cooperative promotion materials.

I, as parent/legal guardian, hereby certify that I am the account holder.

Student Signature:

Toll-Free: 1-877-892-0001

Parent/Guardian/Member Signature(s):

*If you are awarded the scholarship, you must show proof of enrollment. The funds will be sent directly to your school of choice.

Scholarship Application

History of Cooperatives

History of Rural Electrification

As late as the mid-1930s, nine out of 10 rural homes were without electric service. The farmer milked his cows by hand in the dim light of a kerosene lantern. His wife was a slave to the wood range and washboard.

The lack of electricity in rural areas kept their economies entirely and exclusively dependent on agricul-ture. Factories and businesses, of course, preferred to locate in cities where electric power was easily acquired. For many years, power companies ignored the rural areas of the nation.

Rural Electrification Administration

The idea of providing federal assistance to accomplish rural electrification gained ground rapidly when President Franklin D. Roosevelt took office in 1933. On May 11, 1935, Roosevelt signed Executive Order No. 7037 establishing the Rural Electrification Administration (REA). It was not until a year later that the Rural Electrification Act was passed and the lending program that became the REA got underway.

Within months, it became evident to REA officials that established investor-owned utilities were not interested in using federal loan funds to serve sparely populated rural areas. But loan applications from farmer-based cooperatives poured in, and REA soon realized electric cooperatives would be the entities to make rural electrification a reality.

In 1937, the REA drafted the Electric Cooperative Corporation Act, a model law that states could adopt to enable the formation and operation of not-for-profit, consumer-owned electric cooperatives.

History of Choptank Electric Cooperative

The Cooperative was incorporated as Choptank

Cooperative, Inc. on Sept. 21, 1938, following passage of the Rural Electrification Act. Its first 78 miles of line were energized in Caroline County on Dec. 15, 1939, serving 184 members. The cooperative's name was changed to Choptank Electric Coopera-tive in 1942. Then in 1976, Choptank Electric Cooperative joined Old Dominion Electric Cooperative (ODEC) to obtain lower wholesale power costs.

In 2006, Choptank Electric purchased the town of St. Michaels as additional territory, which added approximately 4,000 new members to our service territory.

Scholarship Application

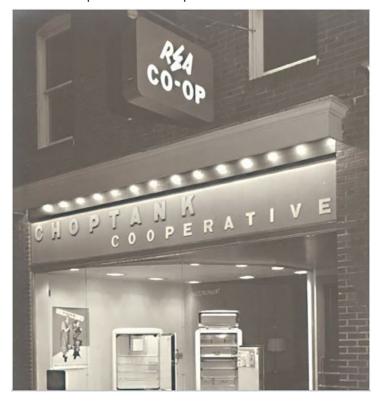

Choptank Electric Cooperative Today

Today, Choptank Electric Cooperative serves more than 55,000 member-owners on Maryland's Eastern Shore. The Cooperative's 6,261 miles of line serves portions of Caroline, Cecil, Dorchester, Kent, Queen Anne's, Somerset, Talbot, Wicomico and Worcester counties.

Choptank Electric has 10 board seats. One seat represents each county for which is served by Choptank Electric along with one additional seat which represents the Ocean Pines District. The Board of Directors is elected to a three-year term at the Annual Meeting.

Choptank Electric Cooperative Mission

Choptank Electric Cooperative exists to provide reliable and cost effective electricity that improves the quality of life for our member-owners. We are com-mitted to service excellence guided by the Seven Cooperative Principles.

The Cooperative Difference

Choptank Electric Cooperative is one of 900 electric cooperatives serving over 42 million people in 47 states. All Cooperatives follow a set of core principles, also known as the 7 Cooperative Principles. These Principles are:

- 1. Voluntary and Open Membership
- 2. Democratic Member Control
- 3. Members' Economic Participation
- 4. Autonomy and Independence
- 5. Education, Training, and Information
- 6. Cooperation Among Cooperatives
- 7. Concern for Community

When a member signs up to receive electric service from Choptank Electric, they become a member of Choptank Electric, not a customer. While investor-owned utilities return a portion of any profits back to their shareholders, electric co-ops operate on an at-cost basis. Co-ops return their profits to their members, also known as capital credits.

Co-ops also play an important role in their local communities. Youth Tour, Operation Round Up, and scholarship programs are just a few ways we impact the community.

Scholarship Quiz

1.	How many people in rural communities		Who is Choptank Electric's wholesale power
	went without power before the Rural		supplier?
	Electrification Act?		A. Old Dominion Electric Cooperative
